1. TFS transfer/resurvey

1.1 Letter to TFS

Copies DC, PC, Ministry, ...

Inform all interested parties (WWG, IFC, UNDP, UNEP, TFCG, KOICE,,) – this I said in letter.

Last letter to TFS of April 2015 (accompanying) was from Dennis say what was planned. TFS reply was that more was needed.

Say in next letter that Peter met with xyz of TFS and it was agreed to send a confirmation letter signed by majority shareholder.

Suggest now letter goes from a Provisional Board of Usitawi Kwamtili Forest Sanctuary Association (KFSA) (saying briefly based in Bern, set up to invest and preserve heritage, family interests, etc)

Signed by Chair and Secretary of KFSA provisional board (if OK for Usitawi).

Makes clear that TFS/government will be dealing with a Swiss-based association acting on behalf of Fielder family and Kwamtili interests.

Will maybe frighten TFS a bit and make it more difficult to deal.

2.2. KFSA creation

Need to confirm with Willy the detail as all subject to legal review in Bern, etc. Having a tax-free association managing investments is a huge privilege but the authorities expect everything to be very correct.
